

DUANE L. DAVIS, Professor

ADDRESS: 256 Weber Hall

PHONE: Work (785) 532-1224

FAX: (785) 532-7059

E-Mail: ddavis@oznet.ksu.edu

Animal Sciences & Industry

EDUCATION:

Institution and location

Kansas State University, Manhattan, KS
Kansas State University, Manhattan, KS
University of Missouri, Columbia, MO

Degree	Year	Field
B.S.	1970	Animal Science
M.S.	1974	Reproductive Physiology
Ph.D.	1977	Reproductive Physiology

RESEARCH AND PROFESSIONAL EXPERIENCE

1977 - 82 Assistant Professor of Animal Sciences & Industry
Kansas State University
1982 - 91 Associate Professor of Animal Sciences & Industry
Kansas State University
1991 -present Professor of Animal Sciences & Industry
Kansas State University

Additional assignments:

Coordinator of Swine Teaching & Research Center, Kansas State University
Coordinator of Tissue Culture Laboratory, Dept. of AS&I

Current Research Interests:

- Pregnancy establishment in pigs
- In vitro fertilization and development of embryos
- Prepubertal development of gilts resulting in fertility
- Stem cells

Major Contributions:

- Identification of catechol estrogens as major products of pig conceptuses and description of their role in prostaglandin production by the conceptus and endometrium.
- Demonstration that oocytes collected from prepubertal gilts have reduced developmental potential in vitro.
- Established that pregnancy failure in prepubertal gilts results from inadequacies in both the embryo and the maternal environment.
- Discovery of umbilical cord matrix cells.
