\*Alternate courses may be used for these requirements if a student completes the entire 34-35 hours of Systemwide General Education Framework at a different KS Board of Regents institution.  
<sup>†</sup>Recommended courses meet the required prerequisite coursework for the Kansas State University College of Veterinary Medicine. Other courses may be required by other schools. Students intending to apply should verify the prerequisite coursework at each and discuss with an academic advisor. If ECON 120 or AGECE 120 is used to meet degree requirements, the other may not be used.  
<sup>‡</sup>Any ENGL, COMM, MATH, or STAT hours used to fulfill this requirement or block must be in addition to hours used in the English (6), Communications (3), and Mathematics & Statistics (3) Discipline Areas required within the Systemwide General Education Framework. A 100- or 200-level course used to fulfill this requirement or block may be used to simultaneously meet this requirement and fulfill the Natural & Physical Sciences (4-5), Social & Behavioral Sciences (6), Arts & Humanities (6), and Institutionally Designated (6) Discipline Areas required within the Systemwide General Education Framework; in this case, the remaining hours shift to unrestricted electives to meet the requirement for 120 total hours.

#### Applied Learning Experience

The ASI major has a long history of commitment to experiential learning and recognizing the importance of student learning outside the conventional classroom. Each student must enroll in at least one course designated as an applied learning experience to earn a B.S. degree in Animal Sciences & Industry. To qualify, experiences must emphasize verbal or written communication, professional and ethical behavior, application of advanced animal science knowledge, critical thinking, and problem-solving. Potential examples, include participation in a competition team, undergraduate research project, internship, or study abroad experience. Contact an academic advisor for a list of pre-approved courses or how to request approval for your own experience.
