

Mistakes on Scan Sheets for State Contest

1

- 1.) Not filling the space completely, or overfilling. The scanner reads a distinct dot, and if there is not enough pencil lead, it may interpret the mark as an erased spot.
- 2.) Marking the wrong column. This contestant put the mark for class 5 in the class 2 column. They got a zero for class 2 for having more than one answer and a zero in class 5 for having no answer.
