2021 Stockmen's Dinner

Postponed until spring/summer

Honoring Pat Koons as “Stockman of the Year”

Please watch the KSU ASI website and Facebook page for date and location announcement and registration information.

Why should I participate?
The program will include the latest information to help you understand the significant changes occurring in the beef industry. COVID-19 has had a huge impact, and this year’s Cattlemen’s Day program will examine these impacts on beef producers, processors, foodservice and retail segments of the industry.

Registration
Registration is free. We encourage you to register online by February 26. To register go to: asi.ksu.edu/CattlemensDay

Location
The conference will be hosted virtually. The day will start at 9:30 a.m. with a welcome and conclude around 12:30 p.m.

For more information about Cattlemen’s Day or the Stockmen’s Dinner, contact:
Lois Schreiner, Department of Animal Sciences and Industry, 785-532-1267, lschrein@ksu.edu

Kansas State University is committed to making its services, activities and programs accessible to all participants. If you have special requirements due to a physical, vision, or hearing disability, contact Joel DeRouchey at 785-532-2280.

Kansas State University Agricultural Experiment Station and Cooperative Extension Service
K-State Research and Extension is an equal opportunity provider and employer. Issued in furtherance of Cooperative Extension Work, Acts of May 8 and June 30, 1914, as amended. Kansas State University, County Extension Councils, Extension Districts, and United States Department of Agriculture Cooperating. J. Ernest Minton, Director
Dr. Jayson Lusk
Lusk is a food and agricultural economist who studies what we eat and why we eat it. Since 2000, he has published more than 200 journal articles in peer reviewed journals, including several of the most cited papers in the profession. He has a bachelor’s degree in food technology and a doctorate in agricultural economics from K-State. He currently serves as distinguished professor and head of the Department of Agricultural Economics at Purdue University.

Jason Rumley
Before joining Radian, Rumley directed the fresh meat and seafood operations for a large national grocery retailer with annual sales of $13 billion. With more than two decades of fresh meat and grocery experience, Rumley specializes in P&L management, sales strategy, competitive analysis and general retail business management. His hands-on store-side expertise and management experience in operations, procurement and merchandising is essential to help Radian’s client’s understand, in real terms, how strategies impact sales, profitability, productivity and the end goal.

Robert Norris
Norris brings more than 20 years of food industry experience in both the conventional and natural/organic segments with an emphasis on grocery and perishable departments. In his current role, he leverages his practical, “real world” experience to quickly establish credibility and productive partnerships in strategy development, assortment/pricing/promotional optimization, as well as P&L/budget management. Robert is also passionate about, and truly enjoys, mentoring both Radian and client staff to drive better results.
