

August 1, 2021

Dear Friends,

We are pleased to announce the **2021 K-State Swine Day** which will be held on **Thursday, November 18**, at the **K-State Alumni Center** located on the K-State campus. We are looking forward to being back in-person and are planning a great educational program this year.

The 2021 KSU Swine Day program will feature a presentation from Dr. Jon De Jong, Pipestone Nutrition, on "*Adapting to a Changing Swine Industry Landscape.*" Of course, the program will also include the popular *Update on Current K-State Applied Swine Nutrition Research.*

To provide an excellent opportunity for producers and vendors to interact, we will provide table-top booth spaces in the K-State Alumni Center. The tables will be available from 8:00 a.m. - 3:00 p.m. on Swine Day. For only \$500 sponsorship (\$550 after October 1), you can have great access to some of the top pork producers and decision makers in the Midwest! We will have limited space available, thus we will take reservations on a first-come first-serve basis. Enclosed please find an Exhibit Space Request Form.

You can also support Swine Day without having an exhibit space. Sponsors are welcome to contribute a monetary donation if you prefer not to have a booth at the meeting. For only \$500 (\$550 after October 1) you can help sponsor this educational event.

We believe this format for Swine Day will give valuable opportunity for education, technology transfer and fun!

A pre-Swine Day social will be held on Wednesday evening, November 17, from 5:30 – 7:30 p.m. for all exhibitors, supporters, speakers, graduate students and invited guests. Plan on joining us for a relaxing evening of fellowship.

Thanks for your consideration and support of our K-State Swine Day! Please do not hesitate to contact us, if you have any questions. We hope to hear from you soon regarding sponsorship!

Sincerely,
