

COW-CALF MINERAL MANAGEMENT FIELD DAY

Tuesday August 11, 2026 | 5 to 7PM

Join K-State Department of Animal Science and Industry along with Pottawatomie County Extension for an evening of learning. Hear about topics covering:

- Fundamentals of managing mineral supplementation for the cowherd
- See precision intake equipment in a field trial setting
- K-State mineral intake research update

To register, scan the QR code or contact an organizer. Please RSVP by August 6.
