

KANSAS STATE UNIVERSITY | Extension

Livestock Emergency Response Plan Training Course

Course Description

This training is intended for first responders (including Fire Service, Law Enforcement and EMS), emergency management, public health, public safety communicators, governmental administrative, veterinarians and others who may provide support, assistance or aid to those dealing with bovine or large animal emergencies.

This training will equip agricultural and traditional responders with foundational knowledge and practical skills to address the unique challenges motor vehicle incidents with bovines can present for emergency personnel. The knowledge and skills gained will assist in the effective preparation and response to this type of emergency and the unique situations that are presented.

Course Highlights

- **Introduction to livestock vehicle incident response**
- **Learn practical, hands-on response skills**
- **Understand unique challenges of livestock crashes**
- **Improve scene safety and coordination**
- **Strengthen preparedness and response effectiveness**
