*The 30 Hour OSHA General Industry Course prepares supervisors and workers to avoid workplace safety and health risks. Tailored specifically to feedyard, dairy, and agriculture workers, this four-part, in-person course will cover general safety, how to avoid common hazards, understanding of workers' rights, employers' responsibilities and more. The last session will be on-location at a commercial facility for a hands-on, interactive learning experience. Upon completion of this course, participants will receive an official OSHA 30 card. **Participants must attend all class dates in order to receive their card.***

Kansas State University is committed to making its services, activities and programs accessible to all participants. If you have special requirements due to physical, vision, or hearing disability, contact **Justin Waggoner** at 620-275-9164. **Kansas State University Agricultural Experiment Station and Cooperative Extension Service.** K-State Research and Extension is an equal opportunity provider and employer.
