K-State Feeder Cattle Price Analyzer

A spreadsheet program to give producers the information and analytics they need to improve management and marketing decisions.

Version -- 10/08/2009 for MS Excel 2003 and 2007

INSTRUCTIONS FOR THE USER:

When you are finished reading the instructions, click on the Main Menu button at the bottom of this screen. The Main Menu contains buttons that will allow you to navigate throughout the tool. Also, several of the cells have a drop-down list. By moving your mouse cursor over these cells, a list of the available options for that cell will be displayed. For correct functionality, be sure to use the command buttons for navigation in this program.

* Expansion and refinement of our tools and content is ongoing. If you have any comments or suggestions or encounter any problems while using the site, please let us know. Thanks!

BEEFBASIS.COM

Decision Support for America's Beef Producers

Welcome to BeefBasis

BeefBasis.Com - Decision Support for America's Beef Producers

The Cattle Basis Risk Analysis Tools at BeefBasis.com give producers the information and analytics they need to improve marketing decisions influenced by cattle basis risk. This site is completely free of charge to producers.

Basis, defined simply as the difference between the local cash markets and futures contract prices, can be complex and can vary dramatically between weight classes and market locations from year to year. Understanding the risk related to basis uncertainty, or "basis risk," is essential to making effective use of price risk management tools such as Chicago Mercantile Exchange (CME) futures and options and forward contracts.

The BeefBasis website was developed by Custom Ag Solutions, Inc. (CAS) and Kansas State University (K-State) in partnership with the USDA's Risk Management Agency (RMA).

BeefBasis gives you relevant information and analytics you need to evaluate marketing decisions and manage your price risk.

Introduction Buy Sell

Cattle Buy/Sell Breakeven Prices Calculator

A tool to calculate the maximum price that can be paid for calves or feeders given an expected selling price and cost of gain (Buy). Additionally, this program also calculates the breakeven selling price needed given a purchase price and an estimated cost of gain (Sell).

Under the "Buy" and "Sell" tabs, results are based on inputs selected. The tool automatically recalculates every time an additional input is entered. Thus, it is important to wait until all the inputs have been entered and reviewed before interpreting any of the calculated results.

(also available on www.agmanager.info as an Excel spreadsheet)

Microsoft Excel - Cattle_Seasonals_Cash.xls

<http://www.agmanager.info/livestock/marketing/database/default.asp>

Cattle_Seasonals_Cash.xls --- a spreadsheet of historical cattle prices in Kansas that can be used to examine seasonal price patterns and value of gain for different weights of cattle.

Last updated: 9-30-09 Print information

Class of cattle -- Prices
 Kansas 5-6 cwt. steers

Class of cattle -- Value of gain
 7-8 vs 5-6 cwt. steers (3 mo lag)

AG MANAGER.INFO
 Kansas State University
 Department of Agricultural Economics

User-specified Value of gain

	Scenario					
	1	2	3	4	5	6
Starting month (Jan=1, Feb=2, etc)	10	10	11	4	5	5
Class (weight/sex) of Cattle - starting	550 lb str	550 lb str	450 lb str	550 lb str	550 lb str	550 lb str
Ending month (Oct=10, Nov=11, etc)	2	2	4	7	8	10
Class (weight/sex) of Cattle - Ending	750 lb str	850 lb str	650 lb str	750 lb str	750 lb str	850 lb str
Weight gain	200	300	200	200	200	300
Months / Average daily gain (ADG)*	4 / 1.64	4 / 2.47	5 / 1.32	3 / 2.19	3 / 2.19	5 / 1.97

* Months between starting and ending periods and calculated average daily gain (ADG) assuming 30.4 days per month.

Intro-Inputs / Prices / Value of gain / Value of gain--User specified / Notes

Determining Pasture Rents in the Flint Hills of Kansas

Inputs

Year: 2010
 Feeder Cattle Futures Prices (\$/cwt): \$98.00
 Corn Futures Prices (\$/bu): \$3.50

Year: rental year
 Feeder Cattle Futures Price: the average feeder cattle futures price during the pasture rental season (average of Apr and Oct contracts)
 Corn Futures Price: average corn futures price for the pasture rental season (average of May and Dec contracts)

Estimates of Cash Rental Rates

	Stocker Cattle				Cow-Calf Pairs	
	Full Season		Short Season		Spring Calves	Fall Calves
	<500 lbs	500-700	<500 lbs	500-700		
Rent, \$/head	\$67.12	\$71.49	\$57.26	\$61.77	\$127.02	\$129.30
Stocking rate, ac/hd	3.90	4.10	2.80	2.90	7.70	8.00
Rent, \$/acre	\$17.21	\$17.44	\$20.45	\$21.30	\$16.50	\$16.16

Formulas used in this tool are reported in Bluestem Pasture Rents Paper available through the link below.
